Dear Mr Mark Zuckerberg,

**RE: THE ESTABLISHMENT OF *languageNEXT*(LTD) WITHIN THE SAN FRANCISCO BAY AREA**

Please refer to my letter Ref: KPI-2021 [EMP 020] of 6 November 2021, which explained the activities I have planned as I look forward to setting *worldNEXT*(LTD) into full operation.

The purpose of today’s letter is to give you further information regarding the incorporation and establishment of *languageNEXT*(LTD), which will be the key pillar of the decreed global transformation project, as expounded on my 30 November 2021 letter. Because of the delay The KAG Project has experienced, it has become necessary to establish *communityNEXT*(LTD) and *languageNEXT*(LTD) at the same time, as per the following additional details:

[1] – I now plan to incorporate *languageNEXT*(LTD) in California and to get it established within the San Francisco Bay Area as soon as possible. Simultaneously, *communityNEXT*(LTD) will incorporate in London, while the Memorandum and Articles of Association for *worldNEXT*(LTD) will be customised to bring them in line with the expectations of my letter Ref: KPI-2021 [EMP 015] of 6 October 2021.

[2] – The establishment of *languageNEXT*(LTD) in the San Francisco Bay Area will facilitate its easier interaction with the team(s) that will be undertaking related research and development as spelt out within the document titled, ‘Assignment of *The End of the Second Epoch* R&D Rights’—it is my hope that you have considered commissioning this research and development.

[3] – The day-to-day operations of *languageNEXT*(LTD) will be handled by a CEO, who should ideally be a co-director at *worldNEXT*(LTD). Having understood the urgency and significance of this project from my 30 November 2021 letter, I request you to identify and kindly refer to me a suitable individual for this role—they will need to

have long-term authorisation to work in the US, and also be passionate about creating a one-world language and actualising technologically aided mind-to-mind communication as described in the various letters I have penned you, copies of which are available at the website. I would then be in continuous communication with this CEO and the R&D team(s) as required, including in-person when necessary.

[4] – Regarding *moneyNEXT(LTD)*, the strategy is to initially rollout within the 54 Commonwealth countries, so it is important that its operations are regulated by the UK’s Financial Conduct Authority (FCA), to ensure the currency’s trust with that target population. Fortunately, the FCA’s regulation of FinTech concerns is a lot more straightforward than in comparable jurisdictions, with the Authority’s main focus being the enforcement of anti-money-laundering and counter-terrorism-financing measures. As I reflected earlier, before *moneyNEXT(LTD)* can launch, *alpha-Omega* will first need to fully operationalise in the background, and the extensive Fintech and blockchain work and testing required for this to happen should start soon.

[5] – As for *marketNEXT(LTD)*, the plan is to launch at a suitable later date on the parcel of sovereign land that is described in *The KAG Project Overview* (See my 6 October 2021 letter). This will probably entail an unprecedented level of technology transfer, coupled with the construction of a brand new post-modern smart city. Once complete, this smart city will be The KAG headquarters and all its future operations will radiate from there. Importantly, *alpha-Omega* will at last have a sovereign home, while *worldNEXT(LTD)* would finally be in a position to adopt the brand name chosen for *The Kingdom of the Almighty God*.

Mark, I once again humbly appeal to you for urgent financial assistance so that further delays to the establishment of *The KAG Public Interface* can be avoided, particularly considering the recorded A.D. 2020 prophetic start date for the global millennial kingdom.

It is also important that we hold an in-person meeting soon, where we can freely exchange views pertaining to this project, and where you could offer suggestions regarding its implementation. My contact info can be found on Sheet Serial No. 4.

*Receive my kind regards,*

Joseph Kuria

The Executive Project Manager, *worldNEXT(LTD)*
